

Attorney Docket No.: CORA-007CIP
U.S. Serial No.: 09/728,171

IN THE CLAIMS:

- B4
1. (Currently Amended) A kit for use in at least inhibiting the progression of restenosis at a vascular site of a host, said kit comprising:
a solution having a subphysiologic pH; and
a means for localized delivery of fluid delivery device for dynamically introducing said solution to and aspirating said solution from a vascular site of a host.
 2. (Original) The kit according to Claim 1, wherein said solution is an inorganic acid solution.
 3. (Original) The kit according to Claim 2, wherein said inorganic acid solution is a hydrochloric acid solution.
 4. (Original) The kit according to Claim 2, wherein said inorganic acid solution further includes a salt.
 5. (Original) The kit according to Claim 4, wherein said salt is NaCl.
 6. (Cancel) ~~The kit according to Claim 1, wherein said means for delivering said solution is a means for flushing said vascular site with said solution.~~
 7. (Currently Amended) The kit according to Claim 1 6, wherein said device means is a catheter.
 8. (Currently Amended) A kit for use in at least inhibiting the progression of restenosis at a vascular site of a host, said kit comprising:
a solution having a pH of less than about 4; and
a means for localized delivery of fluid delivery device for dynamically introducing said solution to and aspirating said solution from a vascular site of a host.

Attorney Docket No.: CORA-007CIP
U.S. Serial No.: 09/728,171

9. (Original) The kit according to Claim 8, wherein said solution is an inorganic acid solution.
10. (Original) The kit according to Claim 9, wherein said inorganic acid solution is a hydrochloric acid solution.
11. (Original) The kit according to Claim 9, wherein said inorganic acid solution further includes a salt.
12. (Original) The kit according to Claim 11, wherein said salt is NaCl.
13. (Cancel) ~~The kit according to Claim 8, wherein said means for delivering said solution is a means for flushing said vascular site with said solution.~~
14. (Currently Amended) The kit according to Claim 8, wherein said device means is a catheter.
15. (Currently Amended) A kit for use in at least inhibiting the progression of restenosis at a vascular site of a host, said kit comprising:
a solution having a pH of less than about 2; and
a ~~means for localized delivery of fluid~~ delivery device for dynamically introducing said solution to and aspirating said solution from a vascular site of a host.
16. (Original) The kit according to Claim 15, wherein said solution is an inorganic acid solution.
17. (Original) The kit according to Claim 16, wherein said inorganic acid solution is a hydrochloric acid solution.

Attorney Docket No.: CORA-007CIP
U.S. Serial No.: 09/728,171

18. (Original) The kit according to Claim 16, wherein said inorganic acid solution further includes a salt.

19. (Original) The kit according to Claim 18, wherein said salt is NaCl.

20. (Cancel) ~~The kit according to Claim 15, wherein said means for delivering said solution is a catheter means for flushing said vascular site with said solution.~~
